NOTE FOR: Director, Intelligence Community Staff

FROM: Deputy Director of Central Intelligence

25X1

I'd like your thoughts on the advisability of retaining a piece of our 1984 Appropriation for DCI/DDCI prerogatives to meet unforeseen Community requirements that would be difficult to handle through reprogramming. I would want to clear anything along these lines with Congress before the mark-up.

If you think this has merit, how much do you think we should ask for?
